29	23.05	0.43	87.84	5.03
30	23.44	0.38	92.81	4.97

These goals are based upon results achieved with minimal allowance for mortality and using Hybrid's feed specifications.

Results will be affected by feeding program, water quality, environment, flock health and growing density.

Acceptable % deviation from the bodyweight targets are: 0 to 8 wks: 1.25% below target to 2.5% above target;
9 to 20 wks: 2% below target to 3.75% above target; 21 to 30 wks: 2.5% below target to 5% above target.

Acceptable % deviation from the feed consumption targets are 5% below and above the stated target for age.
